Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 4 – 7, 14, 15, and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Walk et al. (US 5,975,633).

Regarding claims 1, 4 – 7, 14, 15, and 17, Walk et al. teaches predicting and setting, by an adaptation system which is integrated in a vehicle seat supporting a body, a measure taking into account current vehicle velocity and actuating the system when an event occurs while the vehicle travels through expected lateral acceleration and during curve traveling (abstract; col. 1: 50 – 64 and col. 2: 13 – 22 at least).

Allowable Subject Matter

Claims 2, 3, 8, 9, 16, 18 – 20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 10 – 13 and 21 - 23 allowed.

The prior art fail to teach a vehicle seat part and a backrest, the seat having air cushion integrated in at least side bulges of the seat and/or backrest and a compressed

Art Unit: 3661

air regulating device for adjusting the air pressure in the air cushion and a control computer generating a control signal setting a filling pressure along with a prediction filter which applies predicted lateral acceleration to the control computer taking into account the filling pressure dependent filling times of an adaptation system; the prediction device having a digital road map which contains route data relating to a traffic network and attribute data assigned to the route data, wherein the filter adapts the attributes to current driving velocity and uses such velocity to specify the time when the predicted lateral acceleration is applied to the control unit as set point pressure values.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
